# NURSERY & GREENHOUSE

*Starch-Based Superabsorbent for Retention of Soil Moisture*

**READ ENTIRE CONTAINER LABEL BEFORE USING THIS PRODUCT**

## USE DIRECTIONS

DO NOT USE ON TISSUE CULTURED PLANTS OR CUTTINGS.

Where a rate range is specified use the higher rate in soil with low moisture holding capacity or with plants that have high moisture demand. For more specific instructions see the Zeba user guide on [agnova.com.au](http://agnova.com.au)

### Soil Mix

Use 1-3 Tablespoons (7-21g) per 20 Litres of potting soil or 300-900 g per cubic metre. Incorporate Zeba thoroughly into dry soil mix.

### Shrub/Tree Planting

For bareroot plantings use 1-2 Tablespoon (Tbsp) (7-14g) per tree. Place half the Zeba in the planting hole and mix the remaining half in the backfill soil.  
Transplanting potted containers: Use 1/2 Tbsp (3.5g) per 5 Litres of soil or 1/2 Tbsp (3.5 g) per 30 cm of plant height.

For a 4 Litre pot use 0.5-0.75 Teaspoon (1.25-1.5g). For a 20 Litre pot, use 0.75-1.5 Tbsp (5 -10g). For a 60 Litre pot use 2.5-5 Tbsp (18-35g). For a 120 Litre pot use 6-12 Tbsp (42-84g). Place half the Zeba in the planting hole and mix the remaining half with the backfill soil.

### Vegetables or Ornamentals in Beds

Spread Zeba on beds at rate of 0.5-1.0 kg per 100 square metres. Shortly after application, rake or cultivate to a depth of 5-10cm of soil before planting.

### Landscapes

Spread Zeba on beds at rate of 0.5-1 kg per 100 square metres. Shortly after application rake or cultivate to a depth of 8-15 cm of soil before planting.

### Turf

Situation	Application Rate/ 100 sq m	Comment
Instant turf	0.5-1.5kg	Spread evenly over soil prior to laying turf, roll and water.
Seeding turf	0.5-1.5kg	Broadcast Zeba evenly with the seed. Rake in to top 1-2cm
Renovating existing turf	0.5-2kg	Cut turf short and aerate. Spread Zeba and rake into aeration holes and water.

## GENERAL INFORMATION

Zeba® is a biodegradable, non-toxic, starch-based superabsorbent polymer. It is designed to rapidly absorb and maintain moisture in the root zone, releasing moisture to plants as needed.

## CONTENT ANALYSIS

Active ingredient: 88% Starch-g-poly (2-propenamido-co-2-propenoic acid) potassium salt

**CAUTION:** Powdered material may form explosive dust-air mixture. Use in well ventilated areas. Maintain product under dry storage conditions.

## CONDITIONS OF SALE AND WARRANTY

The goods delivered to you are furnished "as is" by manufacturer or seller. Manufacturer and seller make no warranties, guarantees, or representations of any kind to buyer or user, either express or implied, or by usage of trade, statutory or otherwise, with regard to the goods sold, including, but not limited to merchantability, fitness for a particular purpose, use or eligibility of the product for any particular trade usage. Unintended consequences, including but not limited to crop or plant injury or ineffectiveness, may result because of such factors as the presence or absence of other materials used in combination with the goods, or the manner of use or application, including weather, all of which are beyond the control of manufacturer or seller. In no case shall manufacturer or seller be liable for consequential, special or indirect damages resulting from the use or handling of this product. All such risks shall be assumed by the buyer, user, or its customers. This writing contains all of the representations and agreements between buyer, manufacturer and seller, and no person or agent of manufacturer or seller has any authority to make any representation or warranty or agreement relating in any way to these goods.
