

Imperator[®]

Smoke Generator for Commercial and Domestic Pest Control.

- Quick and easy DIY pest control.
- Ready to use.
(no special equipment required).
- Cost effective.
- Fast and effective knockdown on a wide range of problem pests.
- Contact and vapour action on pests to control both flying and crawling insects.
- Smoke penetrates inaccessible places where pests hide.

(The white smoke contains sub-micron particles many times smaller than the smallest droplets of a fine spray).

- Leaves no chemical residues
- Ideal for use in sensitive areas eg. food preparation areas, libraries and computer rooms.
- 2 pack sizes.
31 g treats 220 - 440 cubic metres.
3.5 g treats 25 - 50 cubic metres.

Controls:

- | | | |
|---|--|---|
| <input checked="" type="checkbox"/> Cockroaches | <input checked="" type="checkbox"/> Silver Fish | |
| <input checked="" type="checkbox"/> Ants | <input checked="" type="checkbox"/> Aphids | |
| <input checked="" type="checkbox"/> Spiders | <input checked="" type="checkbox"/> Caterpillars | |
| <input checked="" type="checkbox"/> Flies | <input checked="" type="checkbox"/> Weevils | <input checked="" type="checkbox"/> Fleas |

Imperator[®]

Smoke Generator 31 G

DIRECTIONS FOR USE (READ THE LABEL BEFORE USE)

Situations	Pests Controlled	State	Rate	Critical Comments
Commercial, industrial, domestic and public service areas	Ants, Flies, Fleas, Silverfish, American Cockroaches, Spiders, Caterpillars, Aphids	All States	1 generator/ 220 cubic metres	Refer to "General Instructions" before using this product. Only insects active at the time of smoke release will be controlled, but those hatching from eggs, immigrant insects or storage insects emerging from commodity residues may not be controlled.
	Caterpillars, Aphids	Qld, NSW, Vic, Tas, WA, NT only		
Glasshouses (ornamentals only)	Ants, Flies, Fleas, Silverfish, American and German Cockroaches, Spiders	All States	1 generator/ 440 cubic metres	If pest populations are heavy, a second smoke release 2 to 3 days later may be required to reduce the insect population to an acceptable level. For best results use late in the evening, leaving treated area closed-up overnight.
	Weevils	Qld, Vic, Tas, WA, NT only		
Agricultural buildings including animal housing	Ants, Flies	All States	1 generator/ 440 cubic metres	

Getting the best out of Imperator

- Advise neighbours.
- Close doors, windows and ventilators.
- Remove all animals, birds, fish (cover tanks).
- Remove silk and rayon fabrics as discolouration may occur.
- Place Imperator on a fire proof base, ignite and leave the room.
- Keep the area closed up for at least 3 hours. For best results, light the smoke generator late evening and leave area closed overnight.
- Ventilate for at least half an hour before re-entry.
- Adult fleas will be controlled, but those hatching after treatment will survive. A second treatment for fleas a week later is recommended.
